

Università degli Studi della Campania “Luigi Vanvitelli”

Dipartimento di Architettura e Disegno Industriale

Master degree in Architecture - Regeneration of Built Environment

Course of Environmental History of Architecture, Prof.ssa Chiara Ingrosso

14.04.2025

Bagnoli survey

*As part of the course **Environmental History of Architecture**, master degree Arbe, students are guided around the former Ilva and Cementir industrial area of Bagnoli. After an introductory meeting by Invitalia to illustrate the history of the site and the various plans and projects envisaged after its decommissioning also aimed at reclaiming the land and sea, the students visit the sixteen architectures still standing and awaiting reconversion, including the steelworks, the cookery, the mechanical workshop, and thermal power plant.*

With the guide:

DANIELA MELLO
Architect, INVITALIA
