East Naples survey

*As part of the course **Environmental History of Architecture**, master degree **Arbe**, students are guided through some particularly significant areas of the **San Giovanni a Teduccio** area. After the beach of industries, with its industrial archaeology, they have the opportunity to visit the **Taverna del Ferro** neighbourhood, analysing the plans and projects for its reconversion, the historical centre of the former Neapolitan casale, and the **Apple Academy** headquarters. The visit ends with a visit to the **Brin 69** building, an example of the reconversion of an ecological architecture.*
