# remark

INTERNATIONAL INTERDISCIPLINARY CONFERENCE  
TIRANA (ALBANIA) 08\11\2022

*The remark conference is an opportunity to reflect on the interdisciplinary topic of observing architecture and the environment. The human eye observes visions of the author’s imagination or design ideas, real or imaginary spaces, narrative paths and visual design. On this event, the interdisciplinary contributions intend to consolidate the concept of critical observation to investigate the constituent processes of architecture, cities and the territory in order to outline the similarities and differences between built reality and memory. A theoretical and graphic discussion between archive documents, iconography, historical and current maps, freehand drawings and digital surveys to document the state of places past, present and future.*

## Topic

Past - *iconography, archives, illustration*  
Present - *processing, visualisation, research*  
Future - *3D reality, maps, modelling*

## Institutional welcome

ANDREA MALIQARI  
*Rector of the Polytechnic University of Tirana*

ORNELLA ZERLENGA  
*Director of the Department of Architecture and Industrial Design,  
University of Campania Luigi Vanvitelli*
