INTERNATIONAL WORKSHOP

TIRANA (ALBANIA) 04 – 08\11\2022

The workshop input organised in the course of Architectural and Urban Surveying (3rd year of the CdS in Building Sciences and Techniques, University of Campania “Luigi Vanvitelli” (Italy) - Department of Architecture and Industrial Design) intends to give students an experience to reflect on the complex topic that increasingly affects the city centres of internationally built realities. In collaboration with the Polytechnic University of Tirana (Albania), thematic questions concerning the knowledge of urban spaces with the support of digital technologies will be enhanced. The study days will be composed of short lectures and manual and instrumental survey activities in the area. The subject of the research is the survey of the urban fronts of Rruga and Durrësit in Tirana.

Institutional welcome

ANDREA MALIQARI
Rector of the Polytechnic University of Tirana
