INTERNATIONAL WORKSHOP  
TIRANA (ALBANIA) 12 – 14 \03\2022

*The sideway workshop organised as part of the Course in Computer Techniques for Building and Territory (1st year of the CdS in Building Sciences and Techniques) will provide students with an experience to reflect on the complex topic that increasingly affects the city centres of internationally built realities. In collaboration with the Polytechnic University of Tirana (Albania) the thematic questions related to the knowledge of urban spaces will be increased with the help of information technologies for building and territory. The study days will consist of short lectures and practical activities on site. The object of the research is the study of the urban fronts of Rruga and Kavajes in Tirana.*
