ANTONIO CALABRÒ

Museimpresa President · Pirelli Foundation Managing Director

Enterprise culture and Made in Italy

Antonio Calabrò's lecture is part of meetings series with external guests that the Interior Design Course promotes and organises every year. These activities are very important as they provide final year students with further support in their training as future professionals. In particular, the meeting with this authoritative personality of the Italian Enterprise Culture, is closely linked to the designing a booth at the Salone del Mobile di Milano, which the students will submit for their final exam.
