Master Degree Course in Architecture - Regeneration of Built Environment (ARBE-ENG)

Aula P1 | 14.12.2023 at 15:30 - 17:30

Kintsugi Thinking. *"digitalecology"*

Massimo LAURIA – Maria AZZALIN

Università degli Studi Mediterranea di Reggio Calabria

“Paradigms, revolutions, innovations, transitions... Kintsugi is a metaphor for resilience, expressing the individual's ability to face crises and changes in the course of life, drawing lifeblood from them for new opportunities.

Similarly, landscape, city and its buildings in their life cycle experience scenarios of transformation, conflict and recovery. Kintsugi thinking expresses the need and urgency to reflect on the attention due to the habitat of modern man, to construction, to the responsibilities of actors in the ecological and digital era.

Institutional Greetings

ORNELLA ZERLENGA
Director of the Architecture and Industrial
Design Department

ADRIANA GALDERISI
President of the Master Degree Course in
Architecture - Regeneration of Built Environment (ENG)

Opening Conference

ANTONELLA VIOLANO
Professor of the Course
on Advanced Technologies for Built Environment

Guest Speakers

MASSIMO LAURIA

MARIA AZZALIN

Università degli Studi Mediterranea di Reggio Calabria
